A History of ILMA and Lake Management

Mr. Dick Hilton, MPOA Wonder Lake

Dick has many years of experience managing water quality and watershed issues and restoration planning. He has been an integral part of many organizations including founding member of the Nippersink Creek Watershed Association, Associate Director of the McHenry Lake County Soil and Water Conservation District, 30-year President of the Master Property Owners Association for the Wonder Lake Area (MPOA), and the Illinois Lakes Management Association. Prior to his involvement in lake management, He was employed in corporate management positions and special education teacher in School District U-46. Dick has a wealth of knowledge on the protection and management of lakes and watersheds, and he is also a wonderful storyteller.

Sharing the stage with Dick will be a panel of past ILMA presidents to discuss ILMA's history and future. They will host an interactive, open forum to examine ILMA's core objectives, the value of our member services, and the irreplaceable spirit of volunteerism. As part of a renewed commitment to transparency, ILMA is driving more robust, open engagement with *you*, the membership - your voice is the future of ILMA!

10:00 AM- 11:30 AM	Concurrent Session 1	Alma & Lincoln
--------------------	----------------------	----------------

Session 1a—Alma Mater Room

Theme: Plant Management

Moderator: Tim Holt

10:00

Hydrilla in Illinois: Ginger Creek Case Study with 1 Year of Treatments and Monitoring

Alana Bartolai, Lake County Health Department

10:30

Biocontrol Options for Controlling Undesirable Vegetation

Vince Mosca, Hey & Associates

11:00

Water Restoration—Managing weeds, Algae & Water Quality

Michael Hiatt, SePRO Water Diagnostics and Restoration

Session 1b—Lincoln Room

Theme: Nutrients

Moderator:

10:00

Evidence of Internal Nutrient Loading in a Mixed-Use Groundwater Drainage Lake

John Schuster, Prairie Crossing Homeowners Association

10:30—11:30

Illinois Environmental Protection Agency—Monitoring Cyanotoxins in Surface and Drinking Waters and Best Management Practices

Alexandrea Terlep, Illinois EPA
