

ALGAE IDENTIFICATION WORKSHOP

Monday, August 26th, 2019

8:00 AM – 5:00 PM

Water Treatment Plant

1300 W. Fairchild St, Danville, IL 61832

Spend the day learning about algae! This workshop will be taught by Dr. Ann St. Amand – President and Owner of PhycoTech, Inc. and Dr. Ciera Baird- Ecotoxicologist, specializing in harmful algal bloom (HAB) management, from Aquatic Control, Inc. The workshop will include algae identification, sampling techniques, HAB-associated problems, water plant management, and algae and HAB control techniques! Participants will have the opportunity to submit algal samples to Dr. Amand prior to the workshop for preparation and identification at the workshop. This workshop is sponsored by the Illinois Lake Management Association, Aqua America, and Aquatic Control, Inc.

Fee: \$50 ILMA Member

\$80 Non-Member or those seeking Personal Development Hours* (includes ILMA Membership)

\$20 Student Rate

Registration includes:

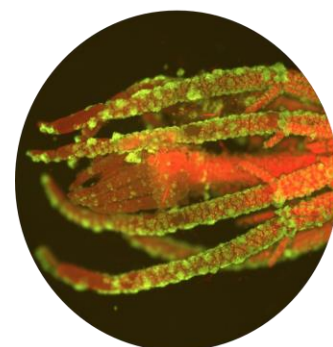

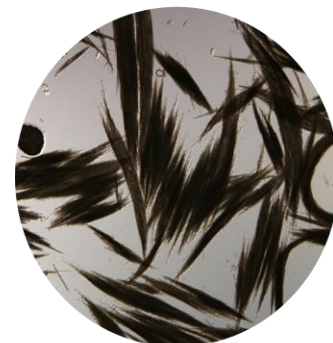

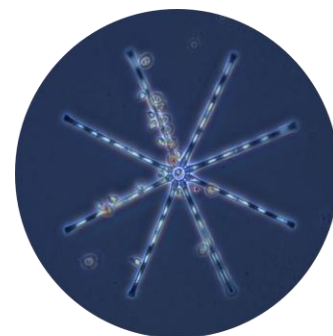

- Breakfast
- AM session by Dr. Ann St. Amand (PhycoTech) on algae ID & sampling techniques
- Lunch sponsored by Aqua America
- PM session by Dr. Ciera Baird (Aquatic Control) on problems caused by HABs, and management techniques for lakes and water treatment plants.

Register online at www.ilma-lakes.org.

REGISTRATION DEADLINE JULY 20TH, 2019

*IEPA CEU's or PDH's are available if requested.
